BAS

BRITISH ASSOCIATION
OF SCLEROTHERAPISTS

INTRODUCTION

The British Association of Sclerotherapists Annual Conference will again be held at Eton College Boathouse, [Dorney Lake Conference Centre](#) near Windsor. This venue was extremely popular with delegates and sponsors in past years, offering easy access to motorways and London Heathrow airport as well as an iconic lakeside venue.

The event attracts sclerotherapy practitioners drawn from the ranks of vascular surgeons and specialist nurses as well as doctors and nurses specialising in aesthetic treatments, throughout the UK and Ireland. 50% of the population suffer from unsightly leg veins, and with no treatment available on the NHS sclerotherapy is a treatment now offered by many vascular and aesthetics practices. The British Association of Sclerotherapists is the only dedicated professional association for UK and Ireland practitioners and is the prime provider of Continuing Professional Development in the field, both for members and for non-members.

We expect around 60 delegates, and sponsors of previous BAS conferences have been delighted at the quality of the enquiries and the access to delegates.

Sponsor Benefits

- Maximum delegate contact: the sponsor exhibition area is all in one with the break-out, refreshment and lunch area, so delegates and sponsors can mingle throughout the day. Delegates also pass by the sponsor tables each time they access the main meeting room.
- A maximum of 6 sponsors, with ample time allocated to visiting the trade exhibition.
- Quality delegates: over 90% of delegates have purchasing authority, many in their own clinics, and they are always keen to take this opportunity to chat to sponsors and find out more about available products.
- 12 months exposure on the BAS website for your company logo and a link to your website.
- Delegate bag inserts if required
